

Dear Certified Professional,

Congratulations on your new professional certification! You have been certified by a program that has earned the WaterSense® label. Your professional certifying organization has partnered with the U.S. Environmental Protection Agency (EPA) to protect the future of our nation's water supply by fostering and promoting certified irrigation professionals with demonstrated water efficiency knowledge. EPA's WaterSense labels professional certification programs that advance the principles and applications of water-efficient irrigation.

As an irrigation professional certified by a WaterSense labeled program, you now have access to exclusive benefits provided by the EPA:

- Inclusion in WaterSense's online [Directory of Certified Professionals](#).
- Work opportunities for WaterSense new homes projects, federal facilities, and LEED® projects.
- Use of the WaterSense promotional label on business cards and promotional items.
- Increased exposure to customers through national recognition from EPA as an environmental steward.
- Access to helpful tools and materials created by EPA.

To help you get started, EPA is providing you with the following materials:

- **What You Need to Know: Certified Professionals:** Learn how to leverage your WaterSense labeled certification.
- **WaterSense Promotional Label:** Use the mark so customers know you're knowledgeable about water-efficient irrigation practices.
- **Show Off Your WaterSense:** Find ideas for using the WaterSense promotional label in your marketing materials.
- **Watering Can Be Efficient:** Introduce your customers to some simple practices and water-smart technologies that make irrigation more efficient.
- **Checklist for a Water-Efficient Landscape:** Impress your customers with a list of water-efficient components or practices you used in their landscape.

Please contact the WaterSense Helpline at (866) WTR SENS (987-7367) or [watersense@epa.gov](mailto:watersense@epa.gov) with any questions and/or if you'd like to receive WaterSense program updates via email.

Sincerely,  
The WaterSense Team
